Class 1

Caesarstone Mineral™ Surfaces – Crystalline Silica Free

Range

Building Products Information Requirements | Information Sheet

Version: Caesarstone Mineral Surfaces CSF V3 14/7/2026

Product name	Caesarstone
Product line	
Product identifier	Caesarstone

Product description

Caesarstone Mineral™ Crystalline Silica Free surfaces are crafted from a unique blend of distinctive minerals and innovative materials, with the new range containing a minimum of 80% recycled content (such as glass). Using cutting edge technology, the new blend adheres to Caesarstone's highest quality and fabrication standards.

Caesarstone is available in a range of decor's and finished and is intended for use as a benchtop, splashback, countertop and tabletop surface in residential and commercial applications.

Relevant building code clauses

B2 Durability: Performance B2.3.1 (c) 5 years.

C3 Fire affecting areas beyond the fire source — C3.4 (a)

G3 Food preparation and prevention of contamination — G3.3.2 (a)

F2 Hazardous building materials — F2.3.1

Contributions to compliance

G3 Food preparation and prevention of contamination — G3.3.2 (a) Caesarstone is non-porous (impervious), and easy to clean.

B2 Durability: Performance B2.3.1 (c) for 5 years

Scope of use

Caesarstone is for interior use only, it is suitable for horizontal benchtop and countertop applications such as food preparation surfaces and bathroom vanities.

Caesarstone is also suitable for use as a splashback.

Although less common it can also be used as a wet area / shower enclosure wall lining.

Caesarstone is fabricated by suitably qualified and approved stonemasons / fabricators.

Conditions of use

Caesarstone is not intended for exterior use

Caesarstone must be fabricated and installed by a suitably qualified and Laminex New Zealand approved Caesarstone fabricator.

When designing, always refer to the Caesarstone Design Guide.
